

Holy Trinity CE Primary School, Sunningdale

Minutes from the Sub Committee Meeting held to discuss the School Catchment Map on 23rd March 2021

Present: Mrs A Boaler, Rev J Hutchinson, Mrs A Williamson , Mrs S Lawson (Clerk)

In Attendance: n/a

Apologies: n/a

Declarations of Interest

There were no declarations of interest.

Catchment Map - Background

The school catchment map is based on the Parish Church boundary. The Admissions Committee requested that the Holy Trinity School catchment map be refreshed, as the boundary on the current map is defined by a very thick black line. This can sometimes make it difficult to discern whether properties on the boundary line are in or out of catchment from consulting the map alone. The school is required to publish the catchment map as part of the school Admissions Policy documentation on the school website.

Catchment Map – The Boundary Line

The sub-committee examined the boundary line thoroughly and consulted the following resources before and during the meeting:

- Existing Catchment Map
- RBWM Catchment Map from Ben Wright
- ArcGIS Church of England Parish Map
- RBWM Know Your Neighbourhood Tool

The meeting agreed that the following areas need slight adjustments to ensure they are clear on a newly defined map:

Larch Avenue – boundary to run down the road so that the South side of the road is in catchment and the North side of the road is out of catchment. The existing RBWM map already displays the boundary this way. This will make it clearer to residents that the new development at Sunningdale Park is wholly in catchment. (Existing catchment map dissects the Sunningdale Park site which wasn't previously an issue with no residential use).

Sunning House, A30, London Road – west boundary. Adjust the boundary outwards slightly to bring in to catchment a couple of new dwellings recently built. These are dissected by the current boundary.

Heather Drive – adjust boundary outwards slightly to bring in all dwellings on Heather Drive.

A30 – east boundary – should dissect the A30 just to the west of West Drive excluding Sheply End and including all houses on the north and south sides of the A30, east of Shrubbs Hill Lane and west of West Drive.

Add on to the RBWM map, the north eastern corner of the parish, with the boundary dissecting the A329 just east of Blacknest Gate Road, including properties to the south of the A329, east of Blacknest Gate Road.

Action

SL to contact Ben Wright to communicate and seek agreement for the adjustments and to request a new copy of the catchment map to use on the school website.
