

Introduction to the schools financial value standard (SFVS) checklist

The schools financial value standard (SFVS) helps to provide schools with assurance that they are meeting the basic standards necessary to achieve a good level of financial health and resource management.

The SFVS checklist asks a number of questions of governing bodies in six areas of resource management to provide assurance that the school is managing its resources effectively. This can be used to identify possible areas for change to ensure that resources are being used to support high-quality teaching and the best education outcomes for pupils.

The checklist was formerly part of a tool that also contained a dashboard. This is now available on the schools financial benchmarking website. It shows how a school's data compares to thresholds on a range of statistics that have been identified as indicators for good resource management and outcomes, which will help you to complete your checklist.
