

FARROW & BALL®
CRAFTSMEN IN PAINT AND PAPER

COLOURS BY NATURE, FOUND BY KIDS, MADE BY US

A chance to WIN their very own paint colour,
plus the school holiday trip of a lifetime.

We've joined forces with the Natural History Museum to create *Colour by Nature*, a palette of 16 paint colours inspired by the natural world.

Now, we're giving young naturalists the chance to do the same and win their very own specially created paint colour, and we'd love for you to invite everyone to get involved this spring.

For the chance to win, we're inviting families to get outside, discover their favourite *Colour by Nature*, and submit it to Farrow & Ball.

Once all the entries are in, a panel of experts will choose their five young winners, each of whom will receive 10 litres of their own paint colour, a private breakfast with a parent or guardian at the Natural History Museum in London, and a trip to the Farrow & Ball factory in Dorset for the big reveal.

Enclosed with this letter, you'll find a poster with details on how to enter, and we'd be thrilled if you would display it on your noticeboard for any budding Charles Darwins to see.

For full details, plus terms and conditions, visit farrow-ball.com/win.

Kind regards,

Farrow & Ball
