Dear Parents,

***The information below is subject to change and cannot be confirmed fully until 28th May when the Prime Minister is due to make his next statement.**

Firstly, we are excited to announce that we will be able to re-open Holy Trinity to start to receive children in certain year groups (Year 6, Year 1, and Reception class). We have been working hard to develop new ways of how we can work as a school whilst ensuring the safety of the children, staff and yourselves as parents. The attached document '**Return Plan Phase 1**' explains in detail how we will re-open. Governors and staff are in agreement with these plans.

We apologise for the bluntness, length and level of detail contained in this document, but we feel as a parent it is necessary for you to make an informed decision.

For parents of children in Year 6, Year 1 and Reception, you have an additional letter detailing information pertinent to your child(ren).

In saying all of the above and setting out our plans this is only provisional and while there is no guarantee we will open on June 1st, the government has asked us to plan to reopen in some form. We must be very clear in stating the government recognise social distancing in primary schools is an almost impossible task. Therefore, we cannot guarantee total safety from Coronavirus in school, however, we will do everything we possibly can do reduce the risks.

It will be your choice to send your child back to school and you must consider all the points before making your final decision. Please note, we will not reopen if we do not feel the school is as safe, as it possibly can be for our school community.

Yours sincerely,

P. O'Brien J. Griffith

Mrs P. O'Brien and Mrs J. Griffith

Co-Headteachers

Working Together

Ascot School Cluster have collaborated closely to ensure we have safe plans in place for re-opening. All schools are unique but we have a common collective ambition to ensure we serve our own school's community and meet the social and emotional needs of our pupils. As a cluster of schools we are supportive in each other's plans.
